

Wind

Certificate of Completion

10 credit hours

Can be completed in a Hybrid Model

The Certificate of Completion in Wind Energy Pre-Apprenticeship is designed with a specific focus on workforce pre-apprenticeship to provide students with the skills necessary to pursue a career in the industry. Upon completion of the certificate students will be able to:

- Demonstrate safety practices common to the wind industry.
- Demonstrate job hazard assessment and resolution to hazards.
- Demonstrate knowledge of climbing, rescue, and emergency medical techniques and procedure necessary for the wind industry.
- Communicate effectively and work collaboratively in a variety of wind related industrial settings.

Suggested order and time of completion:
