ENMU-RUIDOSO COMMUNITY DEVELOPMENT

DIGITAL PHOTOGRAPHY WORKSHOP

8 weeks, starting **August 20** Wednesdays, 5-7 p.m.

\$175 • Computer Lab
Instructor: Jack McCaw

This course will provide participants with practical skills in the use and function of their digital cameras and lenses. The course is designed to provide students with the technical skills of creating images and processing them in a computer using Adobe software.

Learn the basic functions of digital cameras, lenses, and their application. The course includes an introduction to composition, lighting, perspective, and basic digital processing. Students must provide their own camera. Common photographic genres will be explored during class sessions along with field shooting opportunities.

For more information, or to register and pay online, scan the QR code at right.
