Dale Walthall Donates True-Value Building to ENMU-Ruidoso for New Campus

New Mexico Press Clipping Bureau
Albuquerque, NM

Huge local building given to university

57
by DON HIXON
Ruidoso News Staff Writer

A Texas businessman's donation could have far-reaching impacts on Ruidoso's educational system.

Dale Walthall has donated a 40,000 square-foot commercial building in Ruidoso, the former True-Value Hardware building, to Eastern New Mexico University (ENMU). The building is located at the Sierra Mall off Meham Road.

The university's board of regents has authorized university officials to undertake steps to accept the gift. The university will now start considering possible uses for the facility.

One possible use will be to house a new approach to education for rural New Mexico, the University Center. The center concept provides a model for a comprehensive set of educational programs, particularly for smaller, rural communities in New Mexico. The pilot project being considered for Ruidoso would build upon the success of ENMU's long tradition of distance education and

on the success of the ENMU-Ruidoso Off Campus Instructional Center, providing even more education programs, including vocational courses, two year associate degree courses, master's degrees, licensure/certification and upper division programs.

This gift could be the cornerstone of the new University Center and would include a core staff for advising, financial aid, library services, high technology classrooms and other courses now offered in the Ruidoso Municipal Schools or other community buildings.

Representative John Underwood and James Paxton were instrumental in working with the University and Walthall in arranging the contribution of the building.

"This gift represents a unique opportunity to further Eastern New Mexico University's vision of higher education," said Everett Frost, President of ENMU. "By experimenting with this new model of a University Center, in service to the citizens of New Mexico in the 21st century."

Dr. Clayton Alred ENMU-Ruidoso President Presents

Eastern New Mexico University-Ruidoso:

RUIDOSO FREE PRESS 1-10-12

A community asset

By Sue Hutchison

suehutch@valornet.com

Lincoln County taxpayers should be informed of one of their best assets. This entity assists in several community-boosting efforts, and presents the taxpayer with a safe and healthy return. Eastern New Mexico University-Ruidoso is a sound and lucrative investment.

Recently, Dr. Clayton Alred, president of ENMU-Ruidoso, made a presentation to the county commission explaining the benefits derived from the school's presence in the area. His passion for higher education was evident in his talk.

Alred came to Ruidoso from Odessa College in Odessa, Texas. Born and raised in San Angelo, Texas, Alred first visited Lincoln County in the 1960s. When the president's position opened at ENMU-Ruidoso, he submitted an extensive application. His decades-old abiding love of the county has served him well since he assumed leadership of the college two years ago. His wife, Catherine, and their two grown children share his love of the Sacramento Mountains and the county.

The faculty and administrative team at ENMU-Ruidoso bring a wealth of resources. Backgrounds ranging from previous employment with NASA to Ford Motor Company add qualities that are offered to students in the classroom. Local students represent a wide scope of ages and interest

areas. Where in some areas, the median age of college students range in the late teens-early twenties, ENMU-R caters to students whose ages cover a broader span. The diversity of faculty backgrounds addresses this issue and offers a more complete edu-

have proven to increase with the presence of an institution of higher education.

Contrasting community colleges with those backed by a university, Alred noted that university support creates less need

“Education comes in many different forms. We’re here to serve you.”

VILLA INVADES THE U. S.

BANDITS BURN AND KILL IN COLUMBUS

(By United Wire to New Mexican)

COLUMBUS, N. M., March 9.—A band of Mexican bandits, numbering from 800 to 1,000, supposedly under the personal command of Francisco Villa, raided United States territory, early today. They killed American civilians who exposed themselves and set fire to several buildings. For nearly two hours the fighting continued in the streets. Col. H. J. Slocum brought the Thirteenth U. S. Cavalry into action and shortly after six o'clock drove the raiders back across the border. Eight civilians and six United States troopers were the known dead early today. While the only word given out was that steps would be taken to punish the Villa bandits, it was not indicated whether General Carranza would be called upon to do so, or whether American troops would be sent over the line. Later, American troops crossed the line in pursuit.

FOUR AMERICAN RANCHERS SAID TO BE HANGED SOUTH OF BORDER

(By United Wire to New Mexican.)

COLUMBUS, N. M., March 9.—A Mexican fugitive said that Villa, according to his own testimony, just before entering on invaders in Columbus. According to the Mexican's account, Villa declared the watchword would be "Death to Americans" and called into the "killing of Americans was just business" of the United States were responsible for the wretched condition of Mexico.

The United States intends to swallow Mexico, Villa shouted, said the fugitive. Let us do what we can to make it stick in their throats," he declared. That Francisco Villa and his chief lieutenant, Pablo Lopez, were in general command of the raid, was stated by a Columbus man, according to the United Wire Sunday and who escaped from the Mexican band.
