

Cybersecurity Maturity Model Certification (CMMC)

CMMC Model v1.0

Cybersecurity Maturity Model Certification (CMMC) – Self-paced or Boot Camp Training

The Self-paced or Boot Camp 8-hour over 4 days virtual workshop provides DOD contractors an introductory course on Cybersecurity Maturity Model Certification (CMMC). The cost is Self-paced \$200 and Boot Camp \$250. To enroll go to the following link: https://reg.gosignmeup.com/reg/event_page.aspx?ek=0099-0004-287a962e5c614f83b9c4219f0ab8030c

The course "Cybersecurity Maturity Model Certification (CMMC)" is useful for small business IT and cybersecurity personnel at Defense Industrial Base (DIB) businesses pursuing CMMC certification to compete for U.S. Department of Defense (DoD) contracts. Please note that the course is not designed to train CMMC auditors.

The course topics are:

- Module 1 - Introduction to CMMC
- Module 2 - Access Control (AC)
- Module 3 - Asset Management (AM)
- Module 4 - Audit and Accountability (AU)
- Module 5 - Awareness and Training (AT)
- Module 6 - Configuration Management (CM)
- Module 7 - Identification and Authentication (IA)
- Module 8 - Incident Response (IR)
- Module 9 - Maintenance (MA)
- Module 10 - Media Protection (MP)
- Module 11 - Personnel Security (PS)
- Module 12 - Physical Protection (PE)
- Module 13 - Recovery (RE)
- Module 14 - Risk Management (RM)
- Module 15 - Security Assessment (CA)
- Module 16 - Situational Awareness (SA)
- Module 17 - System and Communication Protection (SC)
- Module 18 - System and Information Integrity (SI)
